-------------------------------------	--------

Redon is placed at the confluence of “La Vilaine” and “L’Oust”. The city is crossed by the canal from Nantes to Brest which crosses “La Vilaine” by a set of double locks.

Redon, a flower-filled town, invites you to discover its campsite located two kms from the marina and downtown.

Sports activities close :

- heated pool with 3 sections and relaxation area,
- mountain biking, cycling routes and walking trails,
- bike rentals, canoe trip, electric boat rental,
- orienteering courses in the woods, rope courses, tennis, etc...

Walks and discoveries :

Some kilometers away, taking the towpath, on foot or by bike, you quickly arrive on the site of “Ile aux Pies” (only place in Britain accredited interior Grand Natural Site).

Cultural activities :

Redon owes its importance to the development of the benedictine abbey founded by Conwoïon dating back to 832, at the crossroads of two major rivers of Brittany : la Vilaine and l’Oust.

Hiring a small cruise barge, fishing trips, guided tours, treasure hunts, mountain biking, rock climbing, canoeing, horseback riding... a lot of activities offering varied pleasures.

In summer, music, traditional dances, Fest Noz, stimulate the streets of the city with warmth and cheerfulness.

Salty or sweet, chestnut is a true local culinary specialty. In October, this fruit is proudly celebrated on the occasion of the trade fair TEILLOUSE.
